# QUARTZ SEAMLESS SERIES

Indulge in the sophisticated and contemporary aesthetics of Karran's seamless sinks in laminate and solid surface. The seamless integration of these sinks into your kitchen environment allows for a truly modern and polished look that is absent of exposed seams or protruding rims. Elevate your kitchen ambiance with the Quartz Seamless Series, where form meets function in a harmonious blend of sleekness and practicality.

## ACRYLIC SERIES

## ACRYLIC SERIES

Karran's Acrylic Series sinks are manufactured from a pure, ultra-dense acrylic resin that is reinforced on the underside with a durable FRP backing. This makes them tough and resilient to even the toughest daily tasks. Each of these sinks has a resin matrix rim that allows it to be seamlessly integrated into all laminate and solid surface countertop materials. Seamless integration is the most hygienic way to install a sink into a countertop, making it a great fit for both residential and commercial applications.
